NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2003

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Organization - The Company, a limited liability company, was formed in the state of North Carolina on July 3, 2000. The Company is registered as a broker/dealer with the Securities and Exchange Commission and is also a member of the National Association of Securities Dealers, Inc. The Company's principal business activity is the sale of securities and the rendering of investment advice. Operations began in April, 2001.

Securities Transactions - Commission revenue and related expense arising from securities transactions are recorded on a trade date basis, which is the same business day as the transaction date.

Securities - Marketable securities are valued at market value and securities not readily marketable are valued at fair value as determined by the Manager. The resulting difference between cost and market value (or fair value) is included in income.

Cash Equivalents - Cash equivalents are defined as certificates of deposit and U.S. government obligations with an original maturity date, when acquired by the Company, of less than 90 days, and those securities registered under the Investment Company Act of 1940 which are comprised of cash and other short-term debt instruments and are commonly referred to as "money market funds."

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Furniture, Equipment and Leasehold Improvements - Depreciation of office furniture and equipment is provided using the straight line method over three and seven year periods. Leasehold improvements are being depreciated over a thirty-nine year period.

NOTE 2 - NET CAPITAL REQUIREMENTS

As a registered broker/dealer and member of the National Association of Securities Dealers, Inc., the Company is subject to the Uniform Net Capital Rule, which requires the maintenance of minimum net capital and requires that the ratio of aggregated indebtedness to net capital, both as defined, shall not exceed 1500%. NOTE 3 - RETIREMENT PLANS

The Company has a discretionary profit-sharing plan. Included in this plan is a provision under IRS Code Section 401(k) whereby participants may contribute to the plan. The Company also may make "matching" and discretionary profit sharing contributions and to the plan. Employees may become eligible for matching and profit sharing contributions after they have completed one year of service and have attained age 21. NOTE 5 - OFF BALANCE SHEET RISK AND CLEARING AGREEMENT

Clearing Agreement - In March, 2001 the Company entered into an agreement with another broker/dealer (Clearing Broker/dealer) whereby the Company forwards (introduces) customer securities transactions to the Clearing Broker/dealer, fully disclosing the customer name and other information. The processing and, if applicable, any financing pertaining to the introduced securities transactions is performed by the Clearing Broker/dealer. The customer account is therefore maintained and recorded in the books and records of the Clearing Broker/dealer on the Company's behalf. In consideration for introducing customers to the Clearing Broker/dealer, the Company receives commissions and other consideration, less the processing and other charges of the Clearing Broker/dealer. As part of the terms of the agreement between the Company and Clearing Broker/dealer, the Company is held responsible for any losses arising when the customers introduced by the Company to the Clearing Broker/dealer fail to meet their contractual commitments pertaining to the purchase, sale and possible financing of securities transactions. The Company may therefore be exposed to off-balance sheet risk in the event the customer is unable to fulfill its contracted obligations and it is necessary for the Clearing Broker/dealer to purchase or sell the securities at a loss. The Company's exposure to risk would consist of the amount of the loss realized and any additional expenses incurred pertaining to the transaction or other customer activity.

The initial term of the clearing agreement is three years and is automatically renewed for additional one year terms unless notification of termination by either party occurs. Under terms of the agreement the Company is required to maintain net capital, computed in accordance with SEC Rule 15c3-1, of \$75,000 in excess of the minimum amount required and a \$50,000 deposit with the Clearing Broker/dealer. Also, included in the agreement are monthly minimum charges and termination fees to be paid by the Company if this agreement is terminated by the Company prior to the end of the initial term.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2003

NOTE 5 - OFF BALANCE SHEET RISK AND CLEARING AGREEMENT - (Continued)

Through its Clearing Broker/dealer the Company's customers sell securities they do not own (short securities). Since only customers of the Company enter into these types of securities transactions, the Company's exposure to risk is limited to that resulting in the event these customers are unable to fulfill their contracted obligations and, under the terms of its agreements with the Clearing Broker/dealer, the Company is held responsible for any resulting loss.

NOTE 6 - INCOME TAXES

As a limited liability company, the Company has elected to file as an S Corporation for federal income tax purposes. Income taxes are therefore the responsibility of the sole member of the Company.

Liabilities Pursuant to Secured Demand	
Note Collateral Agreements	
7%, due 03-21-05	\$ 90,000

The subordinated borrowings are covered by agreements approved by the NASD and are thus available in computing net capital under the Securities and Exchange Commission's Uniform Net Capital Rule. To the extent that such borrowings are required for the Company's continued compliance with minimum net capital requirements, they may not be repaid.

Effective September 2, 2003, the Company converted \$325,000 of subordinated loans to equity capital.
